An organization applying for funding must:

- Offer programs and/or services in at least one of the communities served by United Way of Moscow/Latah County.
- At all times be recognized and registered as a charitable organization and agrees to notify UWLM in writing without delay of any change in its status with the fiscal authorities and of any fact likely to affect such status
- Be a non-profit society in good standing
- Comply with all federal, provincial and municipal laws, including laws concerning labor, employment and human rights standards
- Demonstrate community accountability through strong volunteer governance and leadership
- Demonstrate effective human resources, program and financial management, and capacity to deliver programs and services in an effective and efficient manner.

United Way of Moscow/Latah County
APPLICATION FOR FUNDING
2018 (January – December)

Our Belief: At its core, United Way of Moscow/Latah County believes people are connected and interdependent. When we reach out a hand to one, we influence the condition of all. We all win when a child forms healthy attachments through a loving family, when they succeed in school, graduate and make a successful transition to adult responsibilities. We all win when families are financially stable, when people have good health, and when people are engaged and connected. We all win when people have transportation to pursue education, access medical services and work. Through our role as convener, facilitator and advocate, our goal is to create long lasting change by addressing the underlying causes of problems. This belief forms the foundation for our strategies for education, income, and health.

The United Way of Moscow/Latah County board of directors approved the following initiative strategies. Special consideration will be given to programs that specifically advance these strategies:

Education: 1) promotion of early learning concepts for parents and 2) mentoring identified high-risk youth.

Income: increased financial stability and independence for families and individuals.

Health: 1) keeping children safe (from child abuse) – community attention on prevention, public awareness and systems change, 2) healthy behaviors including volunteerism – promoting, engaging and directing community members to promote behaviors that improve health.
